1 Introduction

1.1 Background

- There are numerous products available that allows for real time “chatting” over the internet.
- The Purpose of this project is to implement a Java based chat application that will allow users with an internet connection to engage in private and public conversations.
- The development of this project centred on the development of the message protocol that would allow the application to properly login users, send messages and perform maintenance.

Our Portfolio: <https://toxsl.com/portfolio/>

1.2 Project Objective

- **Communication:** To develop an instant messaging solution to enable users to seamlessly communicate with each other
- **User Friendly:** The solution will be compatible with all devices, reliable and well-organized.

2 Scope & Objective

2.1 Scope

With the knowledge I have gained by developing this application, I am confident that in the future I can make the application more effectively by adding this services.

- Extending this application by providing Authorisation services.
- Creating database and Maintaining users.
- Increasing the effectiveness of the application by providing Voice Chat.
- Extending it to Web Support.

2.2 Project Description

ChatApp is the application for chatting. Using the chatting app you can send a message to the person who is in your contact list and who is using this application.

ChatApp will provide fast messaging service. ToXSL Technologies provide both type of chat application.

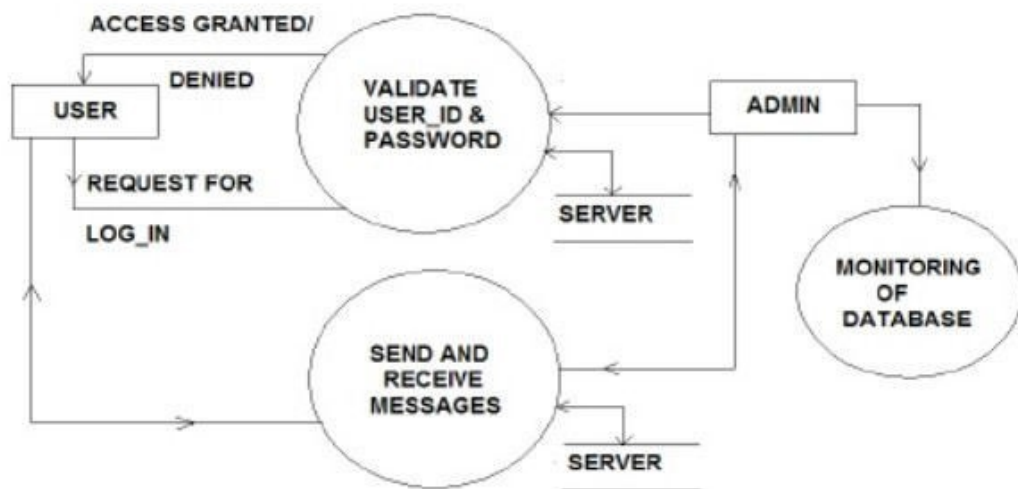

ToXSL Technologies chat application facilitates real time application, with its superior feature set and unprecedented reliability. ToXSL Technologies Chat application increases the efficiency of the communication process.

2.3 Primary Focus:

Our primary focus is PHP, Android and iPhone Applications:

- Nice UI
- Easy and user-friendly
- Emoji's
- Take a picture or select one from your album to send it to the chat or a specific person.
- Private chat

4.5 Incognito Messenger

Incognito Messenger is a cross-platform mobile messaging app which allows you to exchange messages without having to pay for SMS. Incognito Messenger is available for iPhone and Android. Switch to Incognito to send and receive messages, pictures, audio notes, and video messages. You can send video, images, and voice notes to your friends and contacts. Your address book is used to automatically connect you with your contacts.

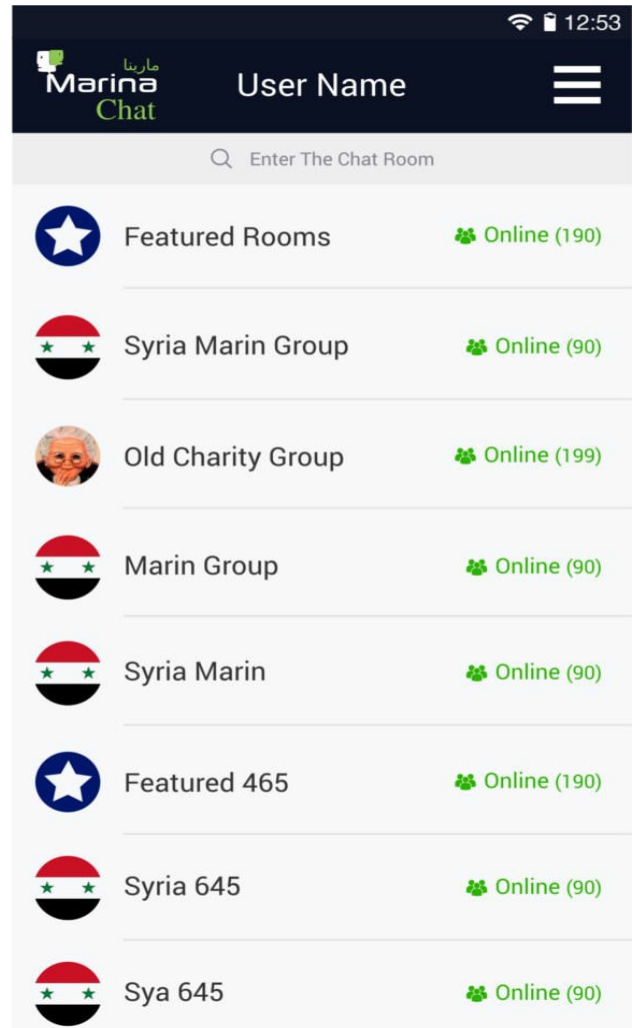

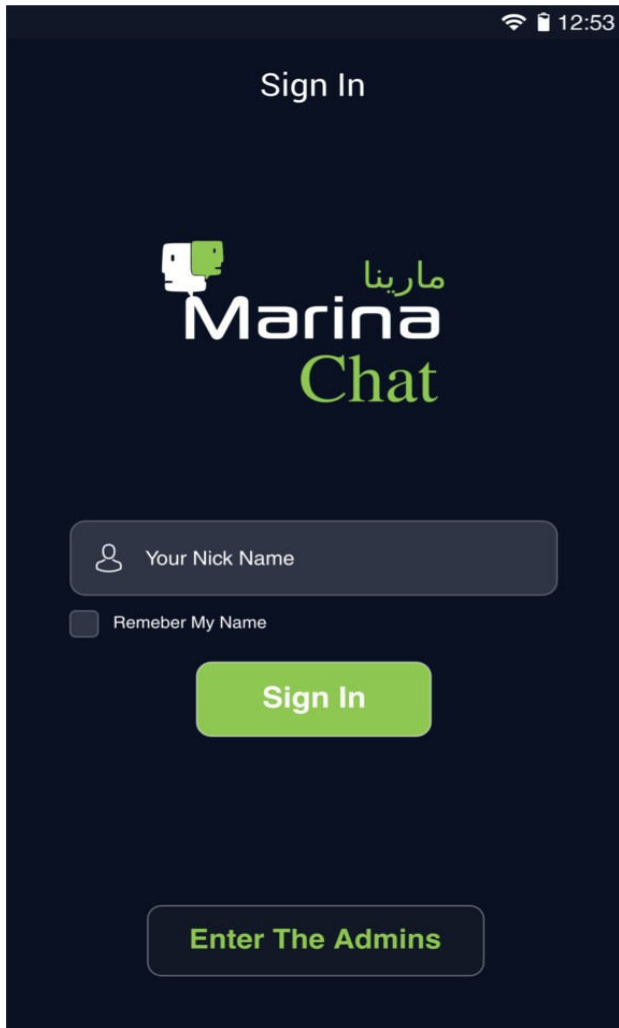

Screenshot:

4.6 Marina Chat

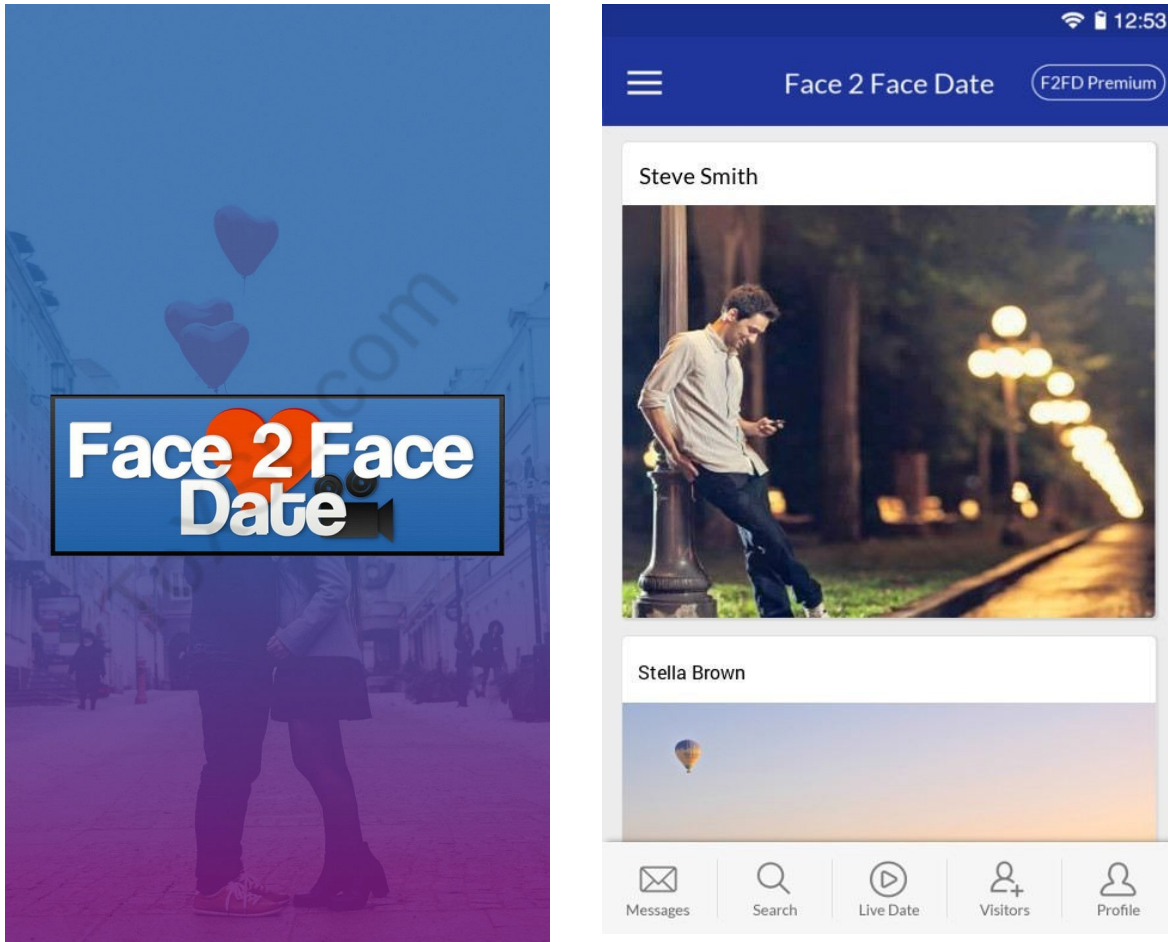

Marina Chat is one of the best chat rooms around. We provide an app chat interface for chatting in the worlds Chat room. You can join our free chat rooms without registration and you are not required to give out your personal details to join the Live Chat Rooms. Whether you are looking for a casual and friendly chat or serious relationship and dating, our online free mobile chat rooms will provide you everything.

Screenshot:

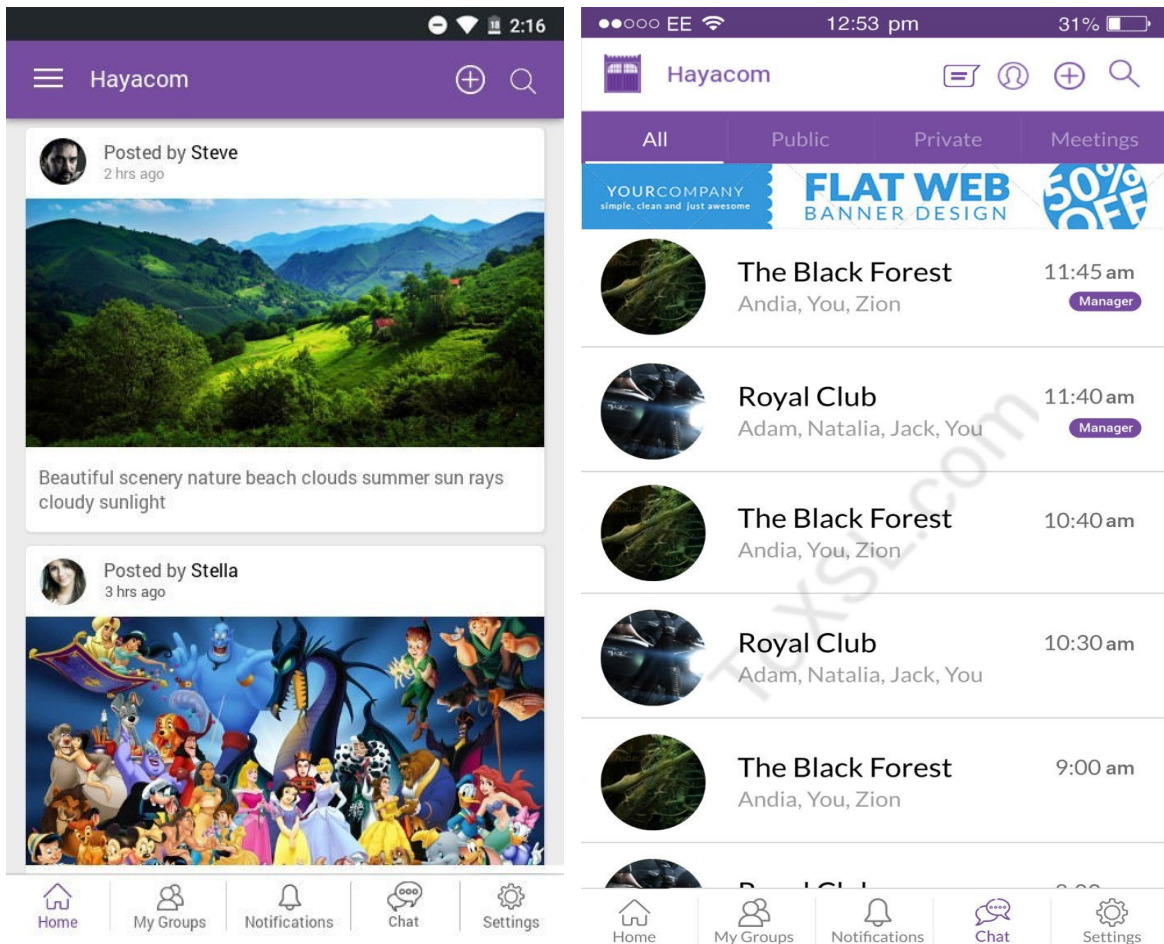

4.7 Face-2-Face Dating

Join Face-2-Face the perfect dating app! Every love story is beautiful, but yours will be perfect! Do you want to meet new people? It's super simple with this dating app. Find out who you like, and you decide where to take it.

Screenshot:**4.8 Hayacom**

It is a “Group application” to create a group, to handpicked set of contacts or to a distribution list. It is the easiest tool for communicating with your Android & iPhone contacts. Once you create a list, you no longer have to select contacts one-by-one for a group message. Simply tap on the list or group name and you are ready to send! You just need to manage, communicate and find options.

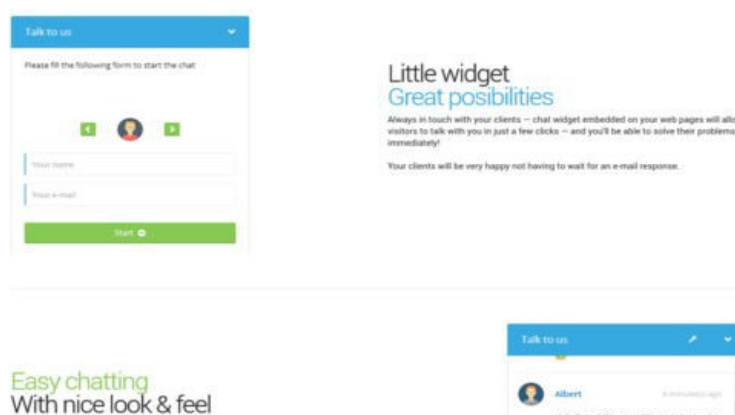

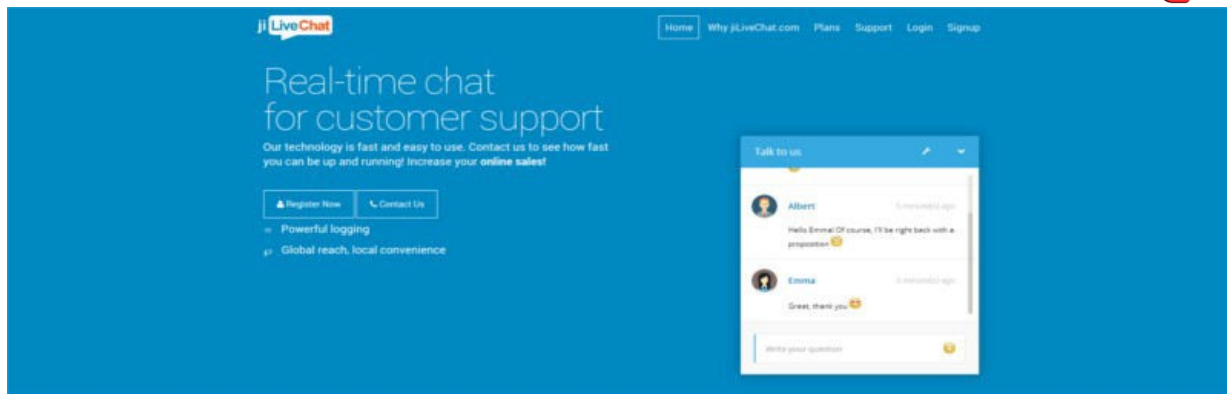

Screenshot:

4.9 JiLive Chat

JiLive Chat provides you with the technology to bring your customer service and live chat to the next level. Jilive chat is a help desk and email ticketing solution which ensures that you stay organised and deliver powerful customer support.

Screenshot:

4.10 Zoom Chat Messenger (2013)

Zoom Chat is messaging app that let you chat for free with any other user of the service. It allows you save the cost of sending SMS by exchanging free messages with anyone else who has the app installed, regardless of what smartphone platform they are using. Besides just chatting via instant messaging, you can attach images, video, audio and voice messages to your chats with Zoom Chat. Zoom Chat includes a group chatting feature too. Zoom Chat includes a wide selection of fun emotions that you can add to your chats.

Screenshot:**5. Conclusion**

The above is a gist of how we plan to take the project further. But, we are flexible enough & will work with you on the project until you are happy.

Thank you very much for the opportunity! We hope to work together with you in order to build your business!
