Deliver comprehensive information and high-end service by adding robust features using our education app.

# **Teachers Application**

## **Top-Notch Features**

#### Login

Allow teachers to log in to the app using usernames, email, phone numbers, or social media

#### **File-Sharing**

Make it easy for teachers and students to share files such as videos, images, and other necessary documents.

#### **Profile Management**

Allow teachers to create, update, and manage their profiles whenever needed.

#### **Teacher Dashboard**

Get connected with all the students & know the necessary information, including the schedule for exams & more.

#### **Push Notification**

Notify teachers whenever students submit assignments, tests, and other reports on a single dashboard.

#### **Attendance Management**

Allow teachers to manage student's attendance and make changes to the attendance if it is marked wrong due to any issue.

#### Assignment Submission & Grading

Teachers can send assignments to the students and grade the assignments submitted by the students.

Manages your operations effectively and efficiently in real time, enhancing the quality of education.

# **Top- Notch Features**

#### Admin Login

Admin can log in to the account with personal credentials & manage students, teachers & overall management.

#### **Interactive Dashboard**

A robust dashboard helps the admin get all the information related to the education app & other activities.

#### **Admission Process**

Admin can add new students to the app and help the students through the entire admission process, including document submission.

#### **Secure Transaction**

Get highly secure multiple integration payment gateways to help users with all the payments.

#### **Profile Management**

Admin can manage students and teacher's profiles, including editing, adding, or deleting inactive profiles.

#### **Revenue Management**

Admin gets options to gather and manage the students' fees with high accuracy on a single panel.

#### **Push Notification**

Give users instant notifications regarding any updates on the class or courses. Sending real-time notifications helps students take the necessary steps.

#### End-to-end Encryption

All data is secure with end-to-end encryption, offering complete safety of all messages.

#### **Session Recording**

Help teachers record the live classes that students can use later, reducing the stress of manually taking down the notes.

### **Live Polls**

Enhance student engagement by adding a live poll feature, helping students participate and stay attentive in class.

### Customization

Get customised education apps according to student's learning abilities and help them effectively and efficiently.
